Emily Rajapakse

Motivated AI & Data Science undergraduate with hands on experience in machine learning, computer vision, and data analytics. Skilled in Python, Java, and data-driven problem solving. Enthusiastic about AI projects, hackathons, competitions, and research-focused volunteering.

EmilyRajapakse2004

Portfolio

Education

2024 - Present
BSc (Hons) Artificial Intelligence & Data Science
Informatics Institute of Technology (IIT), Colombo, Sri Lanka

Level 4- Modules
- Programming fundamentals
- Web development
- Database systems
- Mathematics

Level 5- Modules
- OOP
- Machine learning
- Advance mathematics
- Data science

2023
Aquinas Diploma in English & Literature
Aquinas Institute (BCI), Bolawalana

Projects

INKIND – Child Emotion Prediction from Drawings (2025)
- **Project: Developed an AI-powered web application that analyzes children's drawings to predict emotional states using deep learning, enabling teachers to gain insights into emotions such as happiness, calmness, anxiety, and sadness.**
- **Technologies: Python, Deep Learning, Streamlit.**
- **Outcome: Enabled teachers to get emotion analysis with visual indicators and probability scores via an interactive dashboard.**

GitHub: DSGP-INKIND

Customer churn prediction system (2025)
- **Project: Developed ML models to predict customer churn in the telecommunications sector using Decision Tree and Neural Network, including data preprocessing, feature engineering, and EDA.**
- **Technologies: Python, Pandas, Scikit-learn.**
- **Outcome: Built predictive models to identify potential churn and support data-driven customer retention strategies.**

GitHub: Telco-churn

Dementia Risk Prediction System (2025)
- **Project: Created a web app to predict dementia risk using clinical and cognitive indicators, including preprocessing, feature scaling, and EDA. Implemented a Random Forest classifier with SHAP-based explainability.**
- **Technologies: Python, Pandas, Scikit-learn, Streamlit, Matplotlib, Seaborn.**
- **Outcome: Developed an interactive system for real-time dementia risk prediction with interpretable insights.**

GitHub: Dementia-prediction

Achievements and competitions

Participant – IEEE Xtreme 25' Hackathon
- **Competed in a 24-hour global coding challenge, enhancing problem-solving and programming under time constraints.**

1st Place – Aftermath Competition, IEEE Student Branch
- **Achieved first place in a team-based IEEE competition, demonstrating collaboration and strategic skills.**

Participant – Vertex 25 , IEEE RAS
- **Participated in Sri Lanka's premier team based robotics and automation event with hands-on engagement.**

2021-2023
GCE Advanced Level – Mathematics Stream
Ave Maria Convent, Negombo

Subjects
- ICT-B
- Combine Mathematics-C
- Physics-S

2019-2020
GCE Ordinary Level
Ave Maria Convent, Negombo

Grades
- A-5
- B-4

Technical skills

- **Programming**: Python, Java, SQL, HTML/CSS, JavaScript
- **AI & ML:** ML (classification, regression, clustering), NLP, CNNs, Feature Engineering
- **Tools:** TensorFlow, PyTorch, GitHub, VS Code,Jupyter Notebook

Soft skills

- Teamwork, Problem-Solving, Communication, Critical Thinking, Adaptability, Time Management

Languages

- English
- Sinhala

Participant - IX'25 , IEEE Student Branch
- **Team base approach where we designed a high-fidelity UX prototype using Figma, focusing on future human interaction adaptive interfaces.**

Certificates

- **CODL University of Moratuwa - Python programming 1 and 2**
- **IBM – Data Fundamentals**
- **Introduction to Cloud Infrastructure – Microsoft badge**
- **DevOps Foundations – Microsoft badge**
- **LinkedIn Learning – Artificial Intelligence Foundations: Machine Learning by Kesha Williams**

Volunteering and roles

Public Relations Lead – IEEE Robotics and Automation Society, IIT
- **Appointed as the Public Relations Lead of the IEEE RAS IIT. Responsible for managing outreach and increasing the society's visibility.**

PR Vice chair (IEEE RAS)– RobotNexus 3
- **Served as Vice Chair of PR, a student robotics workshop series covering line-following, wall-following, and other robotics fundamentals.**

Vertex 25 (IEEE RAS) – Program & Logistics team
- **Managed logistics and program activities for Sri Lanka's premier robotics and automation event.**

IX 25 (IEEE Student Branch) – Secretarial team
- **Supported coordination and documentation for Sri Lanka's AI & XR Designathon.**

FusionNxt (IET on campus IIT) – Secretarial team
- **Assisted with administrative tasks to ensure smooth event execution.**

ModelX (IEEE CIS) – Industry Outreach
- **Facilitated mentor engagement and participant support at Sri Lanka's flagship AI/ML hackathon.**

Extracurricular activities

- **Standing committee PR lead for the term 2026**
- **Volunteer – IEEE RAS, IET on campus IIT**
- **Member-IEEE , IEEE CIS , IEEE WIE at IIT**
- **Prefects' Board Member, Chess Club, Interact Club, Athletics at Ave Maria Convent Negombo**
